For nearly 150 years, Dwight School has been dedicated to igniting the spark of genius in every child through highly personalized learning, community engagement, and global vision. Dwight Global is the 21st-century extension of this unique educational philosophy, bonding students' passions and academics in a highly supported flexible learning environment.

An Online School Like No Other

With live online seminars, Oxford-style tutorials, programs in residence on Dwight campuses, and a college-style schedule, students experience the intimacy of an independent school coupled with the freedom to pursue their passions.

A Passport to Dwight's Six Campuses

While students can attend our cloud-based school from anywhere, they can also study at any one of Dwight's campuses in New York, London, Seoul, Shanghai, and Dubai. There is no better way to see the world while pursuing a high school diploma.

The Dwight Global Diploma

Dwight Global students must meet the same exacting standards of Dwight School in New York. Students may align their academic paths with the International Baccalaureate, Advanced Placement, or customize their own personal course of study.

Your Path to College

College guidance starts in grade nine at Dwight Global. Harvard, Yale, Stanford, Princeton, Brown, Duke, USC, Vassar, Middlebury, Tufts, and Tulane are among Dwight Global's recent college acceptances.

Real Students, Real Stories

Our students are scholars and athletes, actors and performers, entrepreneurs and adventurers. At Dwight Global, the pursuit of excellence in one domain does not mean having to settle in others.
